

COOKIE POLICY

v.2 (last updated May 2019)

ABOUT THIS COOKIE POLICY

This cookie policy explains what cookies are and how we use them on our website. You should read this policy so you can understand what type of cookies we use, the information we collect using the cookies and how that information is used. By using our website, you are agreeing that we can use cookies in accordance with this policy.

What are cookies?

Cookies are files which contain a small amount of information. Cookies are stored on the browser or hard drive of your computer or device.

How do we use cookies?

We use cookies to distinguish you from other users of our website and to provide a browsing experience that is unique to you. Cookies are used by us so that our website can remember what you have done whilst browsing, for instance, your log-in details, how far you have progressed with an order and what is in your shopping cart.

What type of cookies do we use?

Cookies can be in the form of session cookies or persistent cookies. Session cookies are deleted from your computer or device when you close your web-browser. Persistent cookies will remain stored on your computer or device until deleted or until they reach their expiry date. We use the following cookies:

- **Analytical/performance cookies.** These cookies allow us to recognise and count the number of visitors to our website and to see how visitors move around when they are using it. This helps us to improve the way our website works, for example, by ensuring that users find what they are looking for easily.
- **Functionality cookies.** These cookies are used to recognise you when you return to our website. This enables us to personalise our content for you, such as greeting you by name and remembering your preferences. It also allows for live chat support during your browsing experience.
- **Targeting cookies.** These cookies record your visit to our website, the pages you have visited and the links you have followed. We will use this information to make our website and the advertising displayed on it more relevant to your interests. We may also share this information with third parties for this purpose. These cookies allow you to share and send information to other websites.

What kind of information do we collect by using cookies?

When you visit our website, we may automatically collect the following types of information from you: Your internet protocol (IP) address, your login information, time zone setting, operating system and platform, information about your visits including the URL you came from, your country, the search terms you used in our website, products you viewed or searched, page response times, download errors, length of visits to certain pages, page

interaction information, (such as scrolling, clicks, and mouse-overs) and the methods used to browse away from the page.

How do you block cookies?

Most browsers allow you to refuse cookies. You may block our cookies by activating the setting on your browser that allows you to refuse the setting of all or some cookies. You can find out more about cookies and how to delete and control them on www.aboutcookies.org or click help in your browser menu.

If you block our use of cookies, you may be unable to access certain areas of our website and certain functions and pages will not work in the usual way. For example, you will not be able to shop online.

Cookies in emails

As well as the cookies we use on our websites, we use cookies and similar technologies in some emails. These help us to understand whether you've opened an email and how you've interacted with it. If you have enabled images, cookies may be set on your computer or device. Cookies will also be set if you click on any link within the email. The types of cookies we use are:

- **Web beacons.** These cookies are tiny, invisible images placed in emails to tell us whether you've opened them (and if so, how often), how you interacted with them (for example the time you spent reading the email), which email software and web browser you used, which device you used and your IP address. We also use web beacons to help us display emails in the best format for your device.
- **Link tracking.** Our emails may contain a number of hyperlinks, each of which has a unique tag. When you click on one of these links the mailing company logs the click so that we can understand who has clicked through from an email to our website. We use this information to tailor future messages to you.
- **Cookies.** Our process for delivering emails may cause cookies to be set when you download images or when you click on a link.

How we can change the Cookie Policy

We may update this policy from time to time. Changes in technology, legislation and authorities' guidance may require us to inform you of the activities we undertake where it affects your privacy rights. You should check this page occasionally to ensure you are familiar with any changes.
